SUMMARY

Frontend and mobile developer focused on React (Next.js) and Flutter. Experienced in building cross-platform applications, integrating backend services, and designing user interfaces with strong UX. Seeking opportunities to develop modern web or mobile applications.

EDUCATION

Faculty of Electrical Engineering and Computer Science <i>Computer Science and Information Technologies - Master's Degree</i> Average grade: 10.0	Maribor, Slovenia 2025 –
Faculty of Electrical Engineering and Computer Science <i>Computer Science and Information Technologies – Bachelor's Degree</i> Average grade: 9.57 (Top 5%)	Maribor, Slovenia 2022 – 2025

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, TanStack Query, Framer Motion, JavaScript, HTML, CSS, Sass, Tailwind CSS

Mobile: Flutter, Dart, React Native, Kotlin

Backend: Node.js, Express, Java Spring, NestJS

Databases: PostgreSQL, MongoDB

Tools: Git, Firebase, Docker, Postman, Jira, Figma

Other: C++, C, C#, Java, Python

PROJECTS

Grades <i>Internal mobile application for managing student grades</i> • UI/UX design and implementation of a mobile application in Flutter • Integration of Riverpod for state management, pagination, and UI animations • Development of features for viewing, editing, and statistical analysis of grades	June 2025 – February 2026 <i>Flutter, Dart, Riverpod, Figma</i>
Cacheout Casino <i>Web application for gambling games</i> • Led frontend development and contributed to application architecture design • Designed UI/UX and developed a component-based design system • Developed key frontend components and UI sections using React/Next.js • Conducted code reviews and collaborated on game and payment flow integration	April 2025 – June 2025 <i>React + NextJS, TypeScript, TanStack Query, Framer Motion, Stripe</i>
Digital Twin of Student Nutrition <i>Bachelor's thesis – system for managing student meals and restaurants</i> • Development of web and mobile applications for student meal management • Backend implementation with JWT authentication and role-based access control (RBAC) • Development of an admin interface for restaurant management and integration of map-based location display	April 2024 – January 2025 <i>MERN, Android Views, C++, Python</i>

EXPERIENCE

Mobile Developer

FERI - Laboratory for Programming Methodologies

- Development of cross-platform applications using Flutter
- UI design using Figma

July 2024 – February 2026

Maribor, Slovenia

Demonstrator

FERI - Laboratory for Programming Methodologies

- Assisted students in understanding and solving exercises during tutorials

March 2025 – May 2025

Maribor, Slovenia
